DETAILED ACTION

This action is responsive to Applicant's amendment filed on 4/14/2004.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 22 and 23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bradley et al [USPAT 5,396,572].

Bradley et al disclose an optical fiber connector having optical cord fixing member holding means [also a rear housing] 190[fig. 3], an optical cord fixing member 160, a tension resistive member 33, a cord outer jacket 30, an optical cord 31, ferrule holding means [also a front housing] 150, a ferrule 140, and an optical fiber 21.

Response to Arguments

Applicant's arguments, filed 4/14/2004, with respect to claims 1-13 have been fully considered and are persuasive. The rejections of claims 1-13 have been withdrawn.

Applicant's arguments filed 4/14/2004, with respect to claims 22 and 23 have been fully considered but they are not persuasive. Applicant argues that claims 22 and 23 of the present application are directed not to a connector plug itself but to an assembling tool for positioning and holding elements of a connector plug. Examiner somewhat agrees with Applicant's argument, however, note that Examiner only considers what is claimed

in the claim. It has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. Ex parte Masham, 2 USPQ2d 1647 (1987).

With respect to Applicant's amendments to claims 22 and 23, note that « optical cord fixing member holding means » and « ferrule holding means » are detachable.

Allowable Subject Matter

Claims 1-21 and 24-26 are allowed.

The reasons for allowing subject matter are discussed in previous Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2874

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
